

Event Resource: Tracking Attendance

Event Resource: Tracking Attendance

3 Ways to Track Attendance

 Event attendance section, pointing to the track attendance, access code, and attendance URL buttons

NOTE: Attendance **must be tracked** for all Residential Connection Events in TommieLink. Community Meeting attendance is tracked through Roompack.

1. Track Attendance Button

- Manually add attendance and view the list of attendees who have already been tracked at the event
- Change who attended, was absent, or excused and add comments next to someone's name
- Download an excel file by clicking "export" for a list of names, emails, attendance status, who tracked their attendance and when they did

2. Access Code & Check-In App

- Download the Check-in app on the [Apple Store \(https://itunes.apple.com/us/app/campus-labs-event-check-in/id1221503400?mt=8\)](https://itunes.apple.com/us/app/campus-labs-event-check-in/id1221503400?mt=8) or on [Google Play \(https://play.google.com/store/apps/details?id=com.campuslabs.checkins&hl=en\)](https://play.google.com/store/apps/details?id=com.campuslabs.checkins&hl=en)
 - See the next page for a detailed app tutorial, [Event Resource: Using the Check-In App for Attendance \(https://stthomas.instructure.com/courses/84343/pages/event-resource-using-the-check-in-app-for-attendance-2\)](https://stthomas.instructure.com/courses/84343/pages/event-resource-using-the-check-in-app-for-attendance-2).
- On the app, enter the access code, and sign into your UST account
- Check people in and out of their event using their event pass (QR code), email, or search by name
- View their RSVP or invited status

- View how many people are checked in

3. Attendance URL

- User follows the link and logs into their Tommie Link account to be marked as attended
 - Beware that the link can be sent to others not at the event
- Can post it in digital events or send via email
