

Residence Life Tommie Advantage 2025 – 2026
[FY, SY, or FY & SY] [STRATEGY] #[OCCURANCE] Lesson Plan ([LO #.x])

Header indicates the naming convention for the Lesson Plan, a concise understanding of the intended audience (FY, SY, or FY & SY), the type of strategy it is (e.g., Community Meeting, 1:1 Conversation), which occurrence of that strategy this lesson plan is (e.g., #4, #6), and which Tommie Advantage Learning Outcome(s) it addresses (e.g., 1.a, 4.b)

Learning Strategy:

[Indicate which strategy this is: Community Meeting, 1:1 Conversation, Roommate Agreement, Community Communication, Conduct Meeting, Event]

[Insert Strategy Description from Residence Life Education Plan]

Target Audience:

[FY, SY, or FY & SY] Residential Students

Date/Time:

Begin: [enter specific date]

End: [enter specific date]

Due Date: [enter specific date]

Tommie Advantage Learning Goal(s) & Outcome(s):

[Insert Learning Goal number & paragraph, then letter and learning outcome from Tommie Advantage Curriculum document according to the format below. Tip: you can right-click on the automatic numbering in Word and change the number. Repeat for each learning goal and outcome intended with the lesson plan.]

[Number]. [Learning Goal]: [Paragraph Description]

Each student will be able to:

[Letter]. [Learning Outcome]

The first section of the Lesson Plan spells out the information from the header with additional information. Date(s) and Time(s) for the implementation of the lesson plan are included here. The Learning Goal(s) and Learning Outcome(s) addressed are included in full text from the Tommie Advantage Curriculum document. As Peer-Educators, you as RAs are expected to know and understand what big picture learning we are hoping for in this lesson plan.

Residence Life Tommie Advantage 2025 – 2026

[FY, SY, or FY & SY] [STRATEGY] #[OCCURANCE] Lesson Plan ([LO #.x])

Strategy Level Outcome(s):

[Finish the statement below with the specific part of the learning outcome(s) this lesson plan intends to address. Use language from the rubrics document for guidance – will the student be able to do the beginning, middle, or advanced outcome after this lesson plan? Repeat for each learning outcome.]

As a result of participating in this [STRATEGY], [FY or SY] residents will be able to:

- Example: Outline the three requirements for an effective learning outcome
- [Demonstratable Action Verb] [Content] [To What Degree]
- [Repeat as necessary]

Strategy Level Outcomes are where we indicate exactly which part of the Learning Outcome(s) we intend to teach residents how to do in this lesson plan. We use our Tommie Advantage Rubrics document to inform these. The outcomes are written as demonstratable actions (things we can observe) so that we can measure them through assessment. When you are finished with the lesson plan, this is what your residents should be able to do based on what you've taught them.

Additional Intended Outcome(s):

[Insert any additional outcomes intended as a part of the strategy, e.g., connecting personally with the RA, reviewing upcoming housing processes, etc. These are different / separate from the Tommie Advantage outcomes.]

As a result of participating in this [STRATEGY], [FY or SY] residents will be able to:

- Example: Recall where to go in the event of a weather emergency
- [Demonstratable Action Verb] [Content] [To What Degree]
- [Repeat as necessary]

Additional Intended Outcomes include things we also hope residents will be able to do by the end of this strategy that are not tied to our Tommie Advantage Learning Outcomes. These outcomes are also written as demonstratable actions (things we can observe) so that we can measure them.

Rationale (the WHY):

[Insert any information about why we are doing this strategy, focusing on these learning outcomes, at this time – helping the facilitator understand the “why.” Could include: connections to previous or future strategy content, the time of year, needs of students, trends in behavior, etc.]

The Rationale section is intended to help RAs understand WHY we are doing this particular strategy, covering this particular learning, at this specific time. We include this when writing lesson plans to help RAs “buy in” and feel confident in explaining what residents will get out of the learning right now.

Residence Life Tommie Advantage 2025 – 2026

[FY, SY, or FY & SY] [STRATEGY] #[OCCURANCE] Lesson Plan ([LO #.x])

Planning & Preparation:

[Insert everything that needs to occur prior to the implementation of the lesson plan such as specific tasks, materials needed, etc. Tasks can include: determining a time and date, rehearsing the facilitation guide, practicing identifying responses for the assessment rubric, preparing/reviewing digital materials like a PowerPoint, etc.]

Refer to Supervising Tommie Advantage Strategies document for general preparation tasks.

Planning and Preparation includes everything that needs to happen **before** the implementation of the lesson plan. We have a document called “Supervising the Tommie Advantage” that includes the general preparation and supervision tasks for each different strategy, but this section will also be specifically edited for each individual lesson plan. It’s important for RAs to review **everything** listed under this section as soon as they receive the lesson plan. Typically RAs will receive lesson plans at least a week prior to the start of implementation in order to give you time to do the necessary preparation. Ask your CD/GSA if there is anything you don’t understand in this section.

Facilitation Guide:

[always start the Facilitation Guide on a new page]

Facilitator: [indicate who will facilitate this lesson plan, e.g., CD/GSAs, RAs, etc.]

Duration: [Indicate the anticipated length of this lesson plan – overestimating is better than underestimating. How much time is appropriate to accomplish the strategy level outcomes, additional outcomes, etc.]

Outline:

[Insert a detailed, step by step guide for the facilitator. Include notes for the facilitator to consider in italics. Anything the facilitator should read or state verbatim should be in quotations.]

[Lesson plans should include:]

- Introduction with an outline of the lesson plan
- Explicit statement of intended learning – sharing the purpose so that students can approach it from a learning orientation rather than a task orientation
- Connection to WHY this learning matters
- Appropriate pedagogical tools (e.g., neuroscience of learning and development, active learning, inclusive pedagogy, etc.)
- Transitions between topics or sections to facilitate flow
- Consider differentiation opportunities – based on a pre-assessment or check in on current understanding, provide different paths to deepen the learning
- Closing

The Facilitation Guide takes the Lesson Plan educator through exactly what to say and do. The Outline will include sections in quotations that are intended to be shared verbatim. These sections are often the introduction (explaining what will be covered), transitions (explaining what is coming up next), and the closing (reviewing what was covered). We do this to help learners follow along with us. This is the content portion of the learning. As Peer-Educators, RAs need to feel confident in their understanding of the content so they are prepared to teach it through facilitating the strategy.

Residence Life Tommie Advantage 2025 – 2026

[FY, SY, or FY & SY] [STRATEGY] #[OCCURANCE] Lesson Plan ([LO #.x])

Assessment & Reporting:

[Assessment strategies include direct assessment of student learning, indirect assessment of student learning, RA feedback, CD/GSA feedback, etc. Almost all lesson plans will include feedback. Some lesson plans will include assessment of student learning.]

[Notes for planning & designing an assessment strategy:]

- What is the purpose of the assessment?
- With whom will the assessment results be shared?
- What is acceptable evidence of the student's mastery of the intended learning?
- How will they provide this evidence?
- Is the assessment language reflective of the strategy level outcomes?

[Include the following for each assessment strategy being used:]

- Type of assessment
- Who is responsible for completing (e.g., facilitator, participant, supervisor, etc.)?
- Rationale for assessment (e.g., why are we assessing this learning, in this way, at this time?)
- Timeframe for assessment (e.g., pre & post, during, etc.)
- Deadline for assessment completion (date & time)
- Rubric (pulled from Rubrics document with No evidence, Beginning, Middle, and Advanced language)
- Tool(s) for completing assessment (e.g., link to Microsoft Forms, Roompack, etc.)

Assessment helps us understand if the intended learning has happened. Just like in a classroom, we have different ways to measure student learning. The best measurement is to have the residents **demonstrate** the learning. We use rubrics to figure out the **degree** to which the learning has happened. In addition to measuring learning, it is important for us to gather information from RAs and CD/GSAs. We use this information and feedback to inform future planning. This section will also have the due dates for everything needed and links to the forms to complete.

Supervision Expectations:

[If RAs are the facilitators, complete this section. Detail what supervisors (CD/GSAs) are expected to do before, during, and after the lesson plan implementation. This should include specific details on delivering the lesson plan to their team, tracking expectations and follow up during the implementation, accountability after implementation, and any information needed to support implementation. Set deadlines for when these will occur and communicate those to Associate Director to be added to Live In Team Meeting agendas.]

Refer to Supervising Tommie Advantage Strategies document for general supervision tasks.

Supervision expectations includes everything that needs to happen **after** the implementation of the lesson plan. We have a document called "Supervising the Tommie Advantage" that includes the general preparation and supervision tasks for each different strategy, but this section will also be specifically edited for each individual lesson plan. RAs should review this section to understand what follow up from their CD/GSA will be.
