SCENARIO #1

You have reserved a room for your community meeting, have made edits to the slideshow to personalize, and make it applicable to your wing. You brought eye masks as an activity and put reminders in your GroupMe.

You get to the room and the technology is not working at all. What do you do?

SCENARIO #2

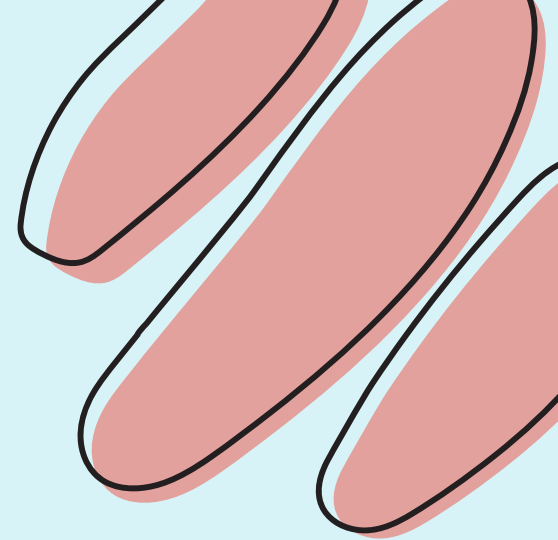

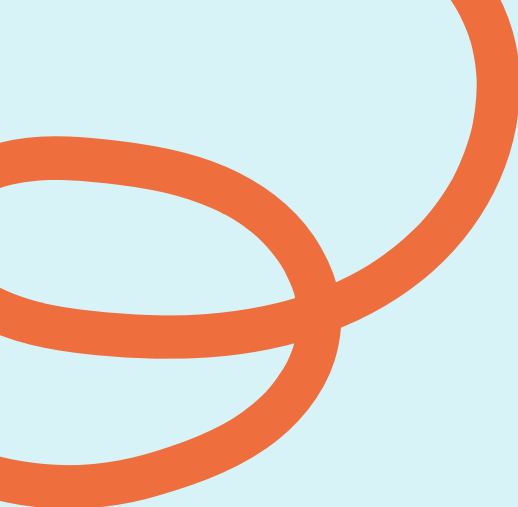

You scheduled your community meeting for a Tuesday night at 7pm in a classroom. You have read through the lesson plan, prepared the powerpoint, have an activity planned, and chose this date and time based on what residents shared – most of your residents said it works for them!

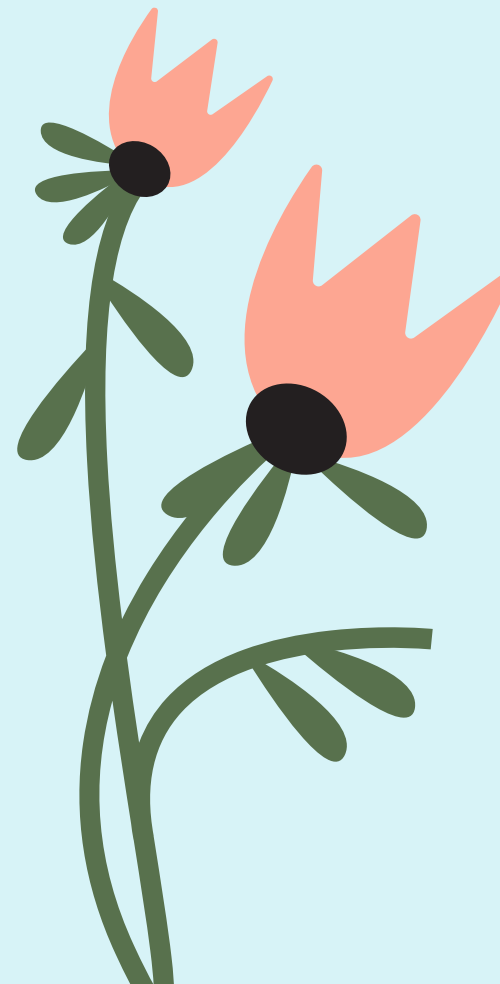

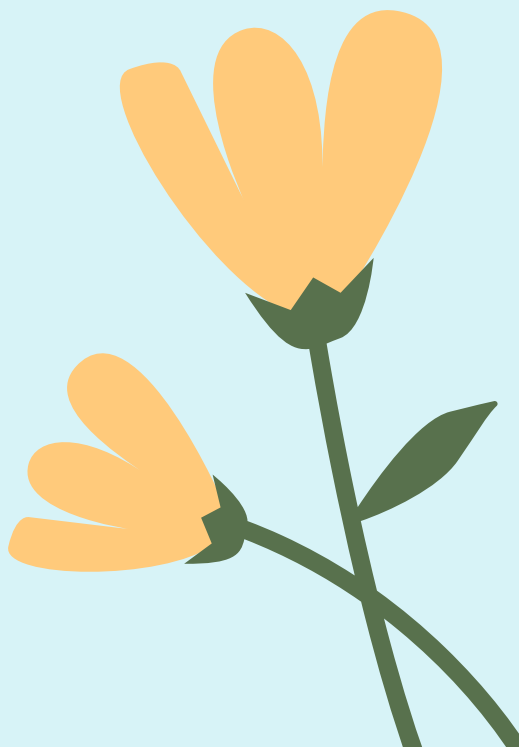

You show up to the meeting and only 2 out of your 36 residents are there on time. What do you do?

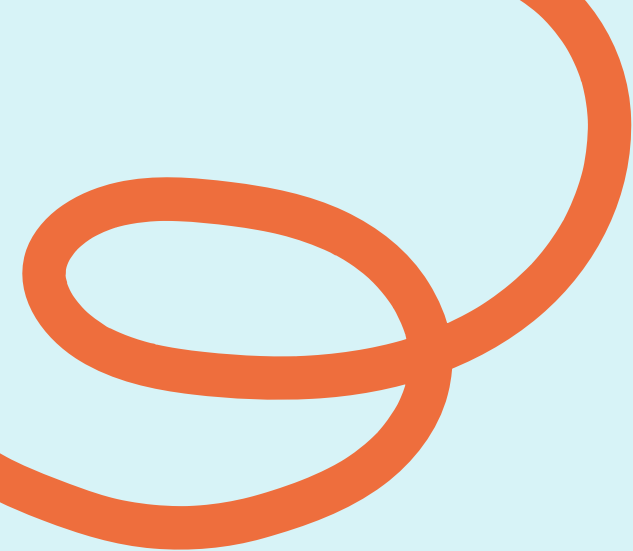

EXPECTATIONS

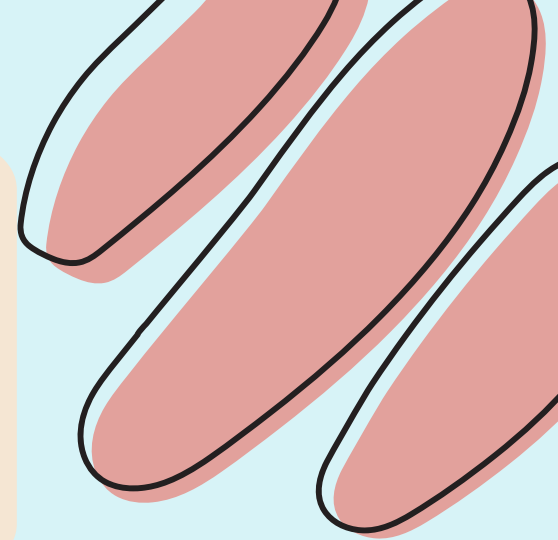

- TommieLink one week in advance
 - Take attendance via Roompack Form
 - Submit form in Roompack
 - Submit feedback form (if applicable)
 - Follow up with residents who could not make it
 - Good vibes.
- 
- 

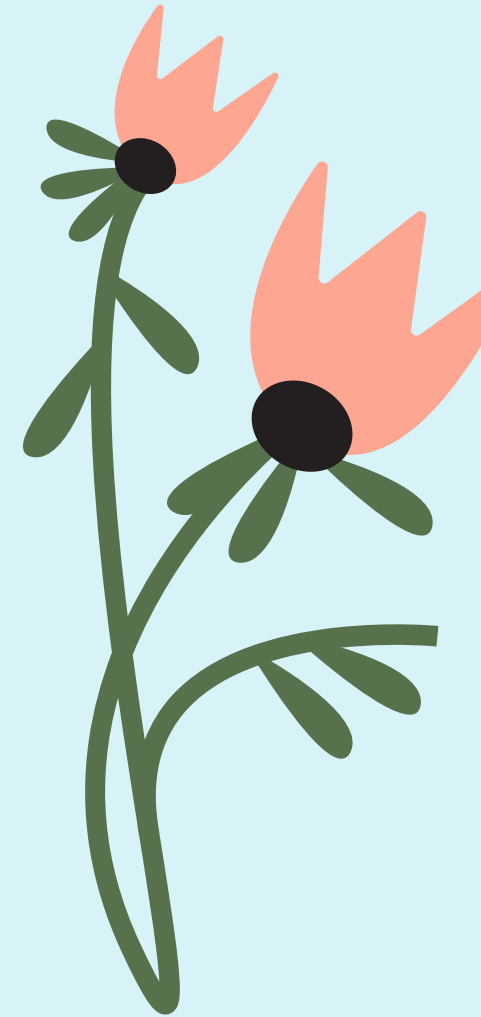

Following up with residents who did not attend

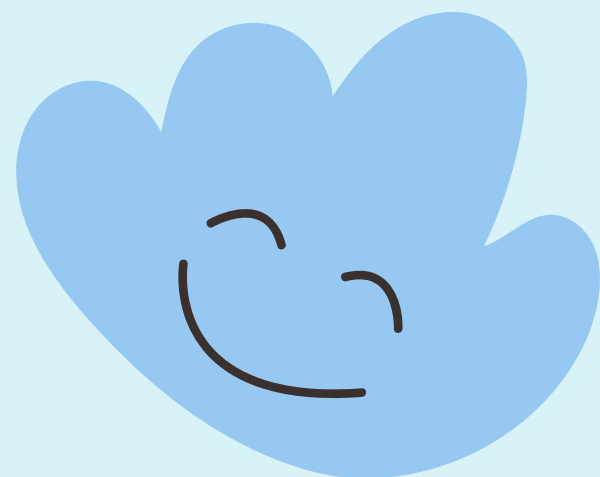

- There WILL be students who do not attend the meeting.
- The information is still necessary for them!
- Follow up should entail
 - 1:1 conversations
 - Sharing the information out after talking
 - If MANY people didn't attend—consider hosting the meeting a 2nd time/ talk to your supervisor about WHY there may have been low attendance.

What NOT to do

- Only tell your residents about the meeting just before it takes place
 - Arrive unprepared and having not looked at the facilitation guide
 - Say that the meetings “aren’t important” or “not a big deal”
 - Make up an icebreaker on the spot or skip the icebreaker altogether
 - Tell your supervisor you “got it” when you still have questions!
 - Forget to submit form in Roomcompact (if applicable)
 - Tell residents who could not make it that now they don't get to know the information...
 - Bad attitude
